

**MARTA Ridership Network Concept**

**Routes by Weekday Midday Frequency**

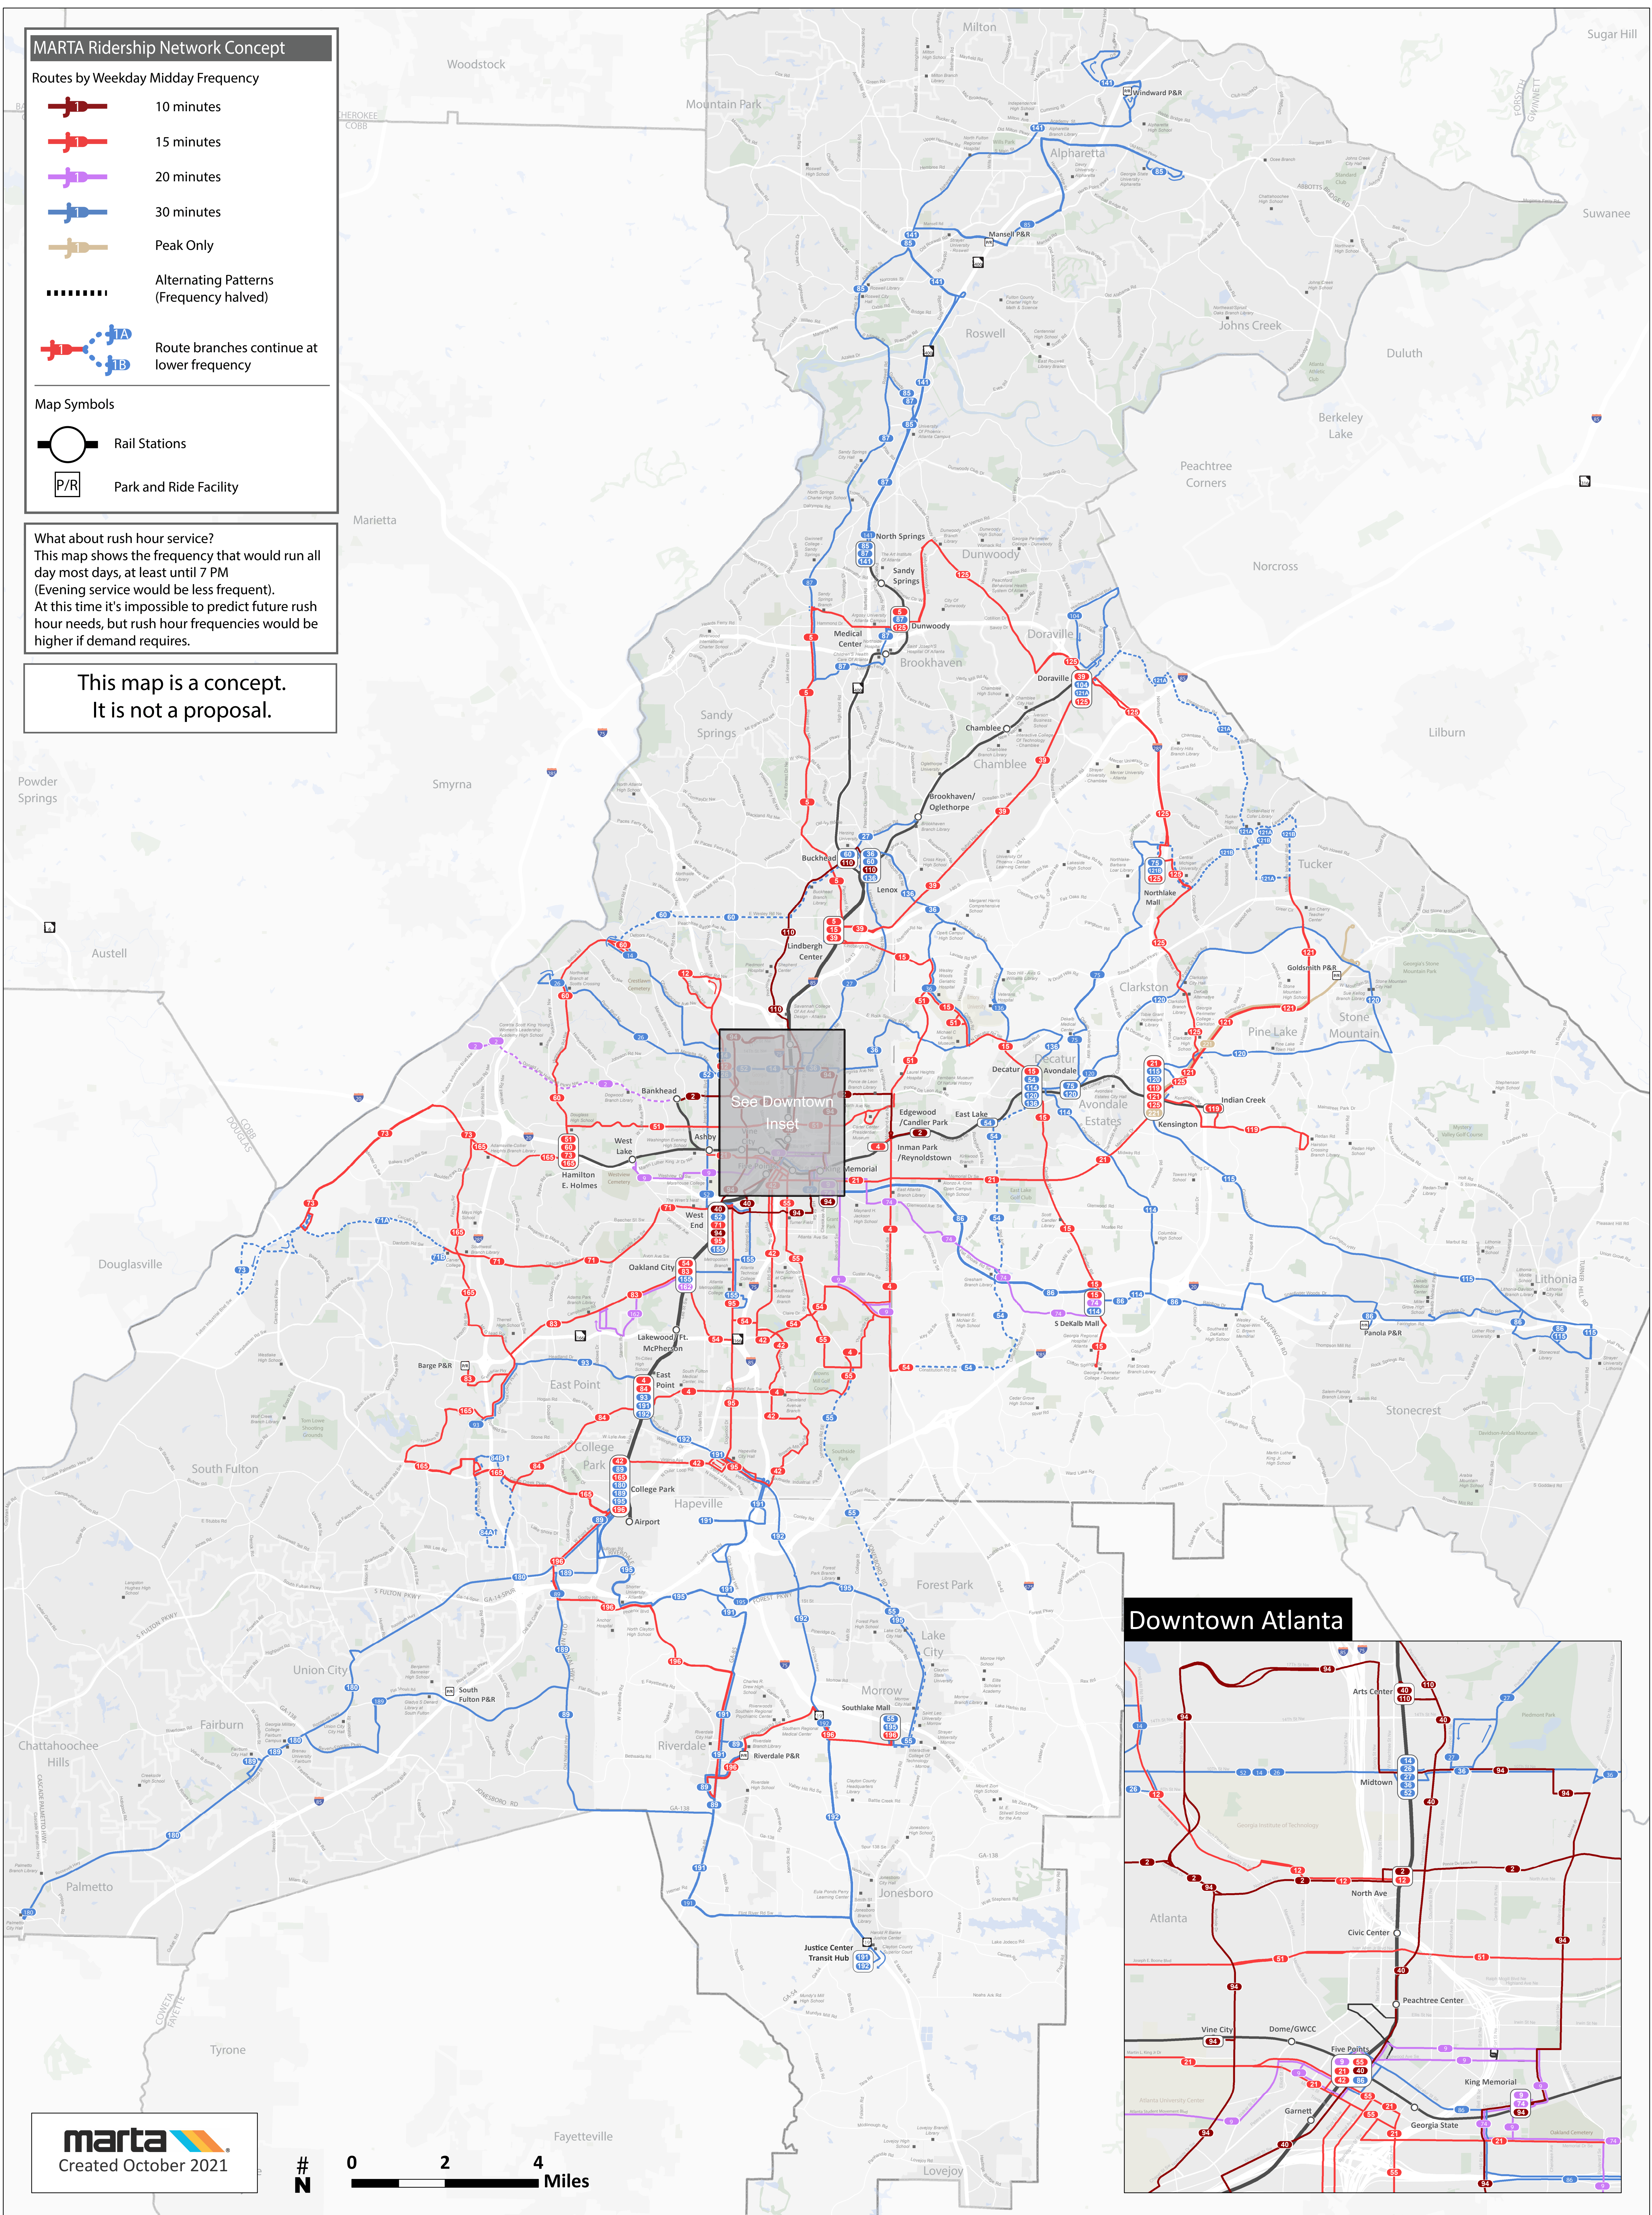

-  10 minutes
-  15 minutes
-  20 minutes
-  30 minutes
-  Peak Only
-  Alternating Patterns  
(Frequency halved)
-  Route branches continue at  
lower frequency

**Map Symbols**

-  Rail Stations
-  Park and Ride Facility

What about rush hour service?  
This map shows the frequency that would run all day most days, at least until 7 PM (Evening service would be less frequent). At this time it's impossible to predict future rush hour needs, but rush hour frequencies would be higher if demand requires.

This map is a concept.  
It is not a proposal.
